

Your guide to Northumberland responsibly:

Litter

Keep Northumberland looking awesome by taking litter home, binning dog poo, and not adding to overflowing bins.

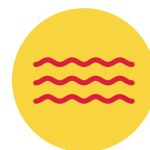

Wildlife

Show wildlife some love by leaving gates as you find them, giving space to animals, and keeping dogs under control.

Camping

Enjoy the great outdoors by camping in legal sites, not starting fires, and not using disposable BBQs.

Weather & Tides

Keep an eye on weather updates, always check tide times if going on or in water, and pack a change of clothes.

Parking

Stay safe by using designated car parks, not blocking gates, and only parking in places you're supposed to.

Cycling

Look out for other road users by slowing down through villages and not dropping gels, food, or bottles.
